

SPEED

IN the designing of THE AVRO AEROPLANE, speed has been attained without the sacrifice of strength.

It is swift, strong, and easily controlled.

The AVRO is the Aeroplane that meets every demand of the aviator, and gives him a greater feeling of security.

At present we are engaged exclusively on Government Work. Orders can, however, be accepted now for delivery after the War.

A. V. ROE & Co., Ltd.,

Designers and Constructors of Aeroplanes and Accessories,
MANCHESTER, SOUTHAMPTON, and 166, Piccadilly, London, W. 1.
