

## Beauty is only skin deep.

So they say. If this be true, how important, therefore is the care of the skin and more particularly in India.

The heat of the sun, dust, perspiration, bad water supply, all assist in destroying skin life, to counteract which Nature must be assisted. The pores of the skin cannot do their work if they are clogged. A face cream is necessary and **KISSPROOF VANISHING CREAM** applied to the face every night before retiring will give the best results possible.

**KISSPROOF CREAM** is scientifically prepared as a skin food to rejuvenate the skin tissues, strengthen and protect them, resulting in a healthy complexion and a perfect skin without blemish.
